## \*Attention macOS 10.15 Catalina users\*

Please disable **System Integrity Protection (SIP)** before installing the XQD driver for Mac.

## DISABLE SIP

- 1. Restart your Mac.
- 2. Immediately hold down **Command+R** on your keyboard to boot into the macOS Recovery.
- 3. When you see the *macOS Utilities* windows, select *Terminal* from the *Utilities* menu.

Ű	macOS Utilities	File Edit	Utilities Window			
			Startup Sec	curity Util ility	ity	
			Terminal	Þ		
					macOS Utilities	
				<b>(2)</b>	Restore From Time Machine Backup You have a backup of your system that you want to restore. Reinstall macOS Reinstall a new copy of macOS.	
					Get Help Online Browse the Apple Support website to find help for your Mac. Disk Utility Repair or erase a disk using Disk Utility.	
						Continue
100						

4. Type *csrutil disable* and press Return.

## 5. Close the *Terminal* app.

6. From the Apple menu, select Restart.

7. Install the XQD driver.

8. During the XQD driver installation, you might encounter a pop-up window stating **"System Extension Blocked**". Instead of clicking on **"OK**", **"Open Security Preferences**" and **"Allow**" system software from **"Sony Corporation**" to load.

	Install XOD Device Driver v2 0.0 06260						
<ul> <li>Introductia</li> <li>Destinatio</li> <li>Installation</li> <li>Installatic</li> <li>Summary</li> </ul>	System Extension Blocked A program tried to load new system extension(signed by "Sony Corporation". If you want to extensions, open Security & Privacy Syste Preferences. Open Security Preferences	s) nable em OK
